

hotspring wiretube

The immediately available alternative to the reflection tube

**The new
generation
of nozzle
heating**

Advantages hotspring wire tube

- Fast delivery times
- Available from 2 pieces
- Variable dimensions
- Lower coefficient of expansion than conventional reflection tubes
- Increase in surface load capacity
- Optimal heat transfer to the nozzle
- Protection against mechanical damage

Technical features

Material	1.4016
Wall thickness	1 mm / 0.04 inch
Diameter	up to 80 mm / 3.15 inch
Length	up to 300 mm / 11.8 inch
Diameter tolerance (standard)	+0.05/+0.15 mm +1.97/+5.91 mils

Options

- Mineral insulated thermocouple possible
- Recesses can be added, e. g. for removal tools

Suitable for the following hotspring variants

- hotspring Micro/F 1.0 x 1.6
- hotspring Mini/F 1.3 x 2.3
- hotspring Classic/F 2.2 x 4.2
- hotspring Classic/Q 3.0 x 3.0
